Subject: Regarding rheological analysis of samples.

Respected Sir,

With respect to above cited subject, I would like to share that one of our faculty Miss Shital Jadhav is carrying out research on novel drug delivery system. As evaluation parameter she needs rheological analysis of samples mentioned below.

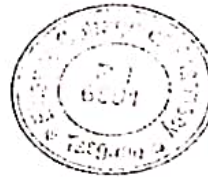

Code of samples	No of samples	Parameters required
M	01	Rate of shear versus shear stress, viscosity vs time.
VG	01	Torque.

I will be highly obliged to get help in this regard. Kindly accept the samples from her for analysis.

Thanking you

Subject: FTIR study of samples

Dear Sir,

With reference to above mentioned subject, we would like to inform you that we are catering M. Pharm course in pharmaceuticals. Our second year M.Pharm student, Ms. Akansha Gade is working on a project entitled "Synthesis and characterization of hydrogels". We will be very much thankful to you if you could perform ATR-FTIR study of hydrogels.

We will acknowledge your support and contribution in project work.

So, it's our kind request you to perform FTIR study.

Thanking you,

Regards

Dr. N. S. Mahajan

Subject: Regrading analysis of determining propensity of co-crystallization

Respected Sir,

With the reference to the subject cited above, the following student is studying in Second year M. Pharm. The samples are required to be analyzed to determine the propensity of co-crystallization for his research work. I am requesting you to avail him college facilities for the analysis of samples.

Name of Student	Course	Sample	Analysis
Kulkarni Shailesh Subhash	M. Pharm II	Drug-Abirateron acetate Coformer- Ascorbic acid	Determining propensity of co-crystals.

Thanking you,
Regards,
Mr. U. S. Patil
