

Green Campus, Energy and Environment Policy

1. Policy Statement

At SWVSM's Tatyasaheb Kore College of Pharmacy, Warananagar, we are committed to creating and maintaining a sustainable and environmentally friendly campus. To achieve this, all members of the HEI community including staff, students, and visitors have a shared responsibility to promote and actively participate in green initiatives.

2. Policy Statement

- To teach students about the importance of the environment and the environmental issues;
- To protect and conserve ecological systems and resources like energy, water, etc. within the campus;
- To promote a culture of energy consciousness throughout the campus community;
- To promote responsible 'water-use-practices', and to protect water resources.

3. Challenges and Opportunities

- Implementing sustainable initiatives can require significant financial investments, which may pose challenges for a HEI with limited resources;
- Implementing green practices, such as improving indoor air quality, promoting active transportation, and providing access to green spaces that can enhance the health and well-being of students and faculties;
- A healthy and sustainable campus environment contributes to a positive learning and working atmosphere.

4. Roles and Responsibilities

Role of Management:

- Develop and implement sustainability plans and initiatives for the campus;
- Allocate the resources and support necessary for implementing green practices;
- Encourage and promote sustainable behaviors among the HEI community;
- Monitor and evaluate the effectiveness of green initiatives and make necessary improvements;
- Provide regular training and awareness programs on sustainable practices.

Role of Faculty Members:

- Incorporate environmental sustainability concepts into the curriculum;
- Encourage students to engage in research and projects related to green initiatives;
- Promote eco-friendly practices within their departments;
- Set an example by adopting sustainable behaviors in their daily activities;
- Provide guidance and support to students participating in green initiatives;
- Conserve energy by turning off lights, computers, and other electronic devices when not in use;
- Practice responsible waste management by recycling and reducing paper usage;
- Report any maintenance issues related to energy or water conservation promptly;
- Participate in training programs to enhance their understanding of sustainable practices.

Role of Students:

- Follow green practices such as recycling, reducing waste, and conserving energy and water;
- Actively participate in campus-wide sustainability programs and events;
- Report any environmental concerns or suggestions to the appropriate authorities.

5. Action Plan: Mission 2022-2023

- Promote energy-efficient practices, such as using LED lighting;
- Encourage the use of natural lighting and day lighting techniques;
- Promote the use of energy-efficient appliances and equipment;
- Install recycling bins throughout the campus for paper, plastic, glass, and other recyclable materials;
- Encourage the use of reusable products and minimize the use of single-use plastics;
- Minimize paper usage by promoting electronic communication and digital documentation;
- Implement a rainwater harvesting system for irrigation purposes;
- Educate the campus community about water-saving practices, such as reporting leaks and avoiding unnecessary water usage.
