| About Workshop |
Effective & efficient quality management system (QMS) is always been a greatest concern for the pharmaceutical industry. It is been used to control, maintain & continually improve the quality of medicines; finally in the interest of public health. It strengthens the link between pharmaceutical development and manufacturing activities. Hence this teacher's workshop is aimed to endow teachers with Pharmaceutical QMS, to help them in preparing the graduates.

| About Workshop |
Identity, strength & purity is always been a great concern to the Pharmaceutical manufacturers. Non-instrumental methods of analysis are used to ensure that their raw materials meet certain specifications, and to check the quality of finished product; along with instrumental techniques. So, conceptual learning of Pharmaceutical Analysis subject is of prime importance; and hence this workshop is organized.
